Children of the Valley

A faith-based after-school program

Locally founded in the fall of 2006, Children of the Valley provides a safe, compassionate, and enriching after-school program for under-resourced children enrolled in the Mount Vernon School District. Our mission is simple: provide a positive, caring, and supportive environment for children-in-need. Specifically, we offer instructor-led academic, enrichment, and social-emotional learning opportunities in a safe setting for Mount Vernon School District students grades K-5.

We are a free after-school program that provides daily academic and personal support to students who are referred to us by their school teachers and/or counselors based on student need. Our mission is focused to provide a positive place that values each child's culture and background.

Enrichment Activities

Social-Emotional Learning

"Our mission is to provide a positive, caring, and supportive environment for children-in-need."

A Letter from Our Executive Director

Flora Lucatero

Dear COV Partners,

We are so pleased to share our first annual Impact Report! 2020 was a year that many of us will not soon forget. It was a year full of challenges and unprecedented circumstances. Despite this, our community came together to support one another. Gratitude is the word that continues to be with me when I think of where we are today. Since March 2020, we have been challenged to shift and pivot our services in order to meet the basic needs of our community. The Mount Vernon School District leaned on us during this past year to assist in the district's efforts to provide full-day academic and personal support for our communities under-resourced children.

During this tumultuous year, we established new partnerships with the Skagit Valley Family YMCA and the Skagit County Boys and Girls Club which allowed us to expand capacity and provide services to additional children and families in need of support.

In the last year, COV grew exponentially and there are plans to continue expanding services and sites into other areas throughout Skagit County.

We are where we are today because of YOU! We continue to be humbled and inspired by your generosity and care for our community's children. Without you we would not be able to provide a loving and safe academic environment for our most under-resourced children.

Thank you for partnering with us and helping us provide a space for each child we serve to feel loved and get the support they need to thrive!

Sincerely,

Flora Lucatero | Executive Director

"Gratitude is the word that continues to be with me when I think of where we are today."

A Letter from Our Board Chair

Beth Ashley

Dear COV Partners,

In the fall of 2019, the COV Board of Directors invited 20 community leaders to link arms with us and create a vision and goals for our 2020-2025 strategic plan.

COVID-19 propelled that plan into accelerated speed, almost overnight. **Thanks to the tireless work of our Executive Director, Flora Lucatero, and her team, and with the support of the Board, COV expanded exponentially within months.** The generous contributions of donors, grant opportunities, and partnerships with the Mount Vernon School District and the Skagit Valley Family YMCA quickly enabled us to open three additional classrooms led by three new team members.

Due to the impact of the virus, the disparity between kids with educational opportunities and those without became more apparent to our partners in adjacent cities as well. There are plans in the works to expand the number of sites beyond Mount Vernon.

Our strategic plan has become a viable roadmap that is closing the opportunity gap for more children than we imagined that fall of 2019.

Beth Ashley | Board Chair

Strategic Plan

In September of 2019, the COV Board of Directors invited 20 leaders from local school districts, higher education, and businesses as well as COV volunteers, alumni, and donors to participate in a visioning process that would help determine future priorities and goals for COV.

The result of that process led to the creation of a five-year strategic plan to expand programming to include kindergarten classrooms and open additional sites in Mount Vernon and across Skagit County. The group determined that in order to achieve these goals, COV must diversify funding and achieve fiscal sustainability.

The group identified three strategic priorities that we will focus on in the coming years.

PRIORITY 1: Fiscal Sustainability

COV has depended upon grant funding, private donations, and a gracious relationship with their host church, Bethany Covenant, to support its operational costs since inception. With an annual budget of approximately \$200,000, COV is seeking additional revenue sources to expand services into other locations in Skagit County.

Activities

Pay off current mortgage on modular buildings and redirect savings into program expansion.

Diversify funding to include additional grants, corporate donations, and endowments.

PRIORITY 2: Implement Kindergarten Programming

Traditionally, COV has provided services to grades 1-5. Early learning and intervention is key to supporting children's academic success.

Activities

Develop Kindergarten curriculum, expand classroom space and learning resources and materials.

Hire additional qualified instructors.

PRIORITY 3: Program Expansion

There is a significant amount of need within Mount Vernon and Skagit County. COV would like to expand current operations to additional locations within the next five years.

Activities

Expand community partnerships to include additional school districts and community agencies.

Add 1-2 additional sites by 2021 in Mount Vernon and establish sites within Burlington and Sedro-Woolley in 2022.

COVID Response

When schools were closed in March 2020, we surveyed our families to determine the level of need for services and support. Many of the families we serve are essential workers who expressed a need for child

BUILDING: Office/Classrooms
Symptoms: Exposure/Contact with Suspected COVID-19
Have any of the following symptoms in the last 24 hours? (On the first day after a trip or if you have been in close contact with anyone else who has COVID-19 or a confirmed COVID-19 case, please ask your healthcare provider.)

- Fever (100.4°F) or chills
- Cough
- Shortness of breath or difficulty breathing
- Unusual fatigue
- Muscle or body aches
- Headache
- Recent loss of taste or smell
- Sore throat

Based on the feedback we received from our families, we quickly pivoted our services from an after-school program to a full-day program. We partnered with the local Boys and Girls Club in order to maximize support and share staff and personnel costs. As a result of this partnership, we were able to offer services from 7am until 6pm, Monday through Friday through the last week of June in 2020.

When schools returned this fall, the Mount Vernon School District reported that a staggering 600 children needed to be in a child care setting for supervision and academic support. In response, we shifted to offer a full-day and partial day program and partnered with our local school district to expand daily services to serve more children. **Due to social distancing and Center for Disease Control guidelines, we had to lower the number of students we served in each classroom.** This left a huge unmet need for our most under-resourced students.

In December 2020, COV had a waiting list of over 40 children. We turned to our community for support and they truly stepped up to help. Through generous donations and a new partnership with the Skagit Valley Family YMCA, we were able to expand our Bethany site in January 2021. We added three classrooms, hired five new team members, and welcomed 37 new children for a total of 88 students getting daily academic and personal support each day at the Bethany site. Currently COV is serving 107 children between both sites.

How many children do we serve?

Graduate of Mount Vernon High School & Skagit Valley College

Future Police Officer

COV Alumni Spotlight

Omar Santos

Omar Santos started attending COV in fourth grade. During the years that he attended COV, he said that the program provided a safe place for him to go after school to finish his homework and interact with other kids. Omar said that one of the best things about COV was the academic support he received from the staff and volunteers.

This support helped him to stay on top of his homework and other assignments as well as increase his skills in reading. Since completing the program, Omar has gone on to graduate from Mount Vernon High School and he received his Associate's Degree from Skagit Valley College. He is currently working in the criminal justice field and his long term goal is to become a police officer.

Family Impact

The Barrera Family

The Barrera family has had several children participate in the COV program. Their relationship with COV spans over eight years.

The family tells us that the academic support their children have received has been essential to the children's success. Before attending COV, one of their children was struggling with math. Her school counselor referred her to COV because she was having a difficult time understanding the content and falling behind. Due to her parents' educational barriers they weren't able to assist her in her daily homework support at home. The staff at COV worked with her to provide additional support and over time, math became easier for her and her grades improved. **This would not have been possible without the daily academic support by the volunteer tutors and staff at COV.**

When the pandemic hit and schools transitioned to remote learning, the Barrera family was worried about how they would support their youngest children's academic needs, with one child in kindergarten and the other in 3rd grade. Both parents were essential workers without the opportunity to work remotely and they faced language and technology barriers that made it difficult to help with daily remote learning homework. They were very worried that the children would not be able to stay in school.

The family was grateful when they learned that COV was shifting to provide a full-day academic support program. The Barrera family says, "We are very thankful for all of the staff at COV for being so committed and showing love to all of the kids. COV is a blessing to all of the families they serve."

Volunteers Make a Difference

While our volunteer needs have changed this year in response to COVID-19, we still depend upon the generous spirit of community members to help us support children enrolled in the program.

Evangeline DeMaster

Evangeline DeMaster started volunteering at COV in fall 2020. She learned about COV through her church, Bethany Covenant. She is a retired educator who was looking for a way to get involved in her community. Every Wednesday she picks up lunches from our local nearby elementary school and delivers lunch to the students at COV.

"Evangeline's joy is infectious and her energy is unmatched."

With tears in her eyes, she told us about her first day volunteering at COV. After losing her husband three years ago, it touched her heart to feel needed and to be helpful. Well, we feel touched and honored that she's willing to share her energy and love with us!

Thank you, Evangeline!

Partnerships

Skagit Valley Family YMCA

The Skagit Valley Family YMCA partnered with COV to provide learning support for our community's most under-resourced children. This partnership allowed us to open three additional classrooms and doubled our capacity to serve students in need.

Mount Vernon School District

Thanks to the partnership with MVSD, COV was able to operate a site on the Mount Vernon High School campus from September through March 2021. In March, we moved our operations from the high school to Centennial Elementary School.

Leadership Skagit

 We are extremely appreciative of the new laptops and classroom materials that we received from the Leadership Skagit 2020 cohorts.

Budget Towing and Repair

Budget Towing and Repair provides much-needed storage space for our program vehicles during the weekends.

Boys and Girls Club

In March 2019 we quickly worked together with the Boys and Girls Club to develop a plan to serve our children of essential workers. We shared resources to serve students together through June 2020.

Bethany Covenant Church

Since our inception in 2006, Bethany Covenant Church has graciously hosted and supported our program.

Baylii Branding

 Thank you to Baylii Branding for sharing their expertise to help spread awareness about COV and the impact our program has on our community.

Helping Hands Food Bank

We are grateful for our partnership with Helping Hands. Each week our families are provided with a generous basket of food.

Donor Recognition

Children of the Valley is sustained through the generous donations received from individual community members, churches, businesses, grants, and foundations. Your contribution allows us to continue providing vital services and support to the children most in need from our community at no cost to their families. We do receive monthly donations from many of our COV families who are able to pay what they can.

Rainmakers

We are indebted to the donors who provide recurring financial support to COV. This includes monthly, bi-monthly, and quarterly donations, as well as individuals who have given consistently throughout the year.

Children of the Valley

1318 South 18th Street
Mount Vernon, WA 98274

"Your contribution allows us to continue providing vital services and support to the children most-in-need from our community at no cost to their families."

Leave a Legacy

Are you interested in creating a legacy that will benefit generations to come? Did you know that you can include COV in your estate plans? Your planned gift will ensure that future generations of children will have the opportunity to receive essential academic support and social emotional learning in a caring environment.

For more information about this opportunity, contact Flora Lucatero at flora@covmv.org or 360.982.2399.
